

## Guide Sheet for Downloading and Viewing the Machzor PDFs

The easiest way to view the machzor while on Zoom would be to participate in the service on one device (it could be a phone, tablet or computer) and view the machzor PDFs on a secondary device (preferably a laptop or desktop computer).

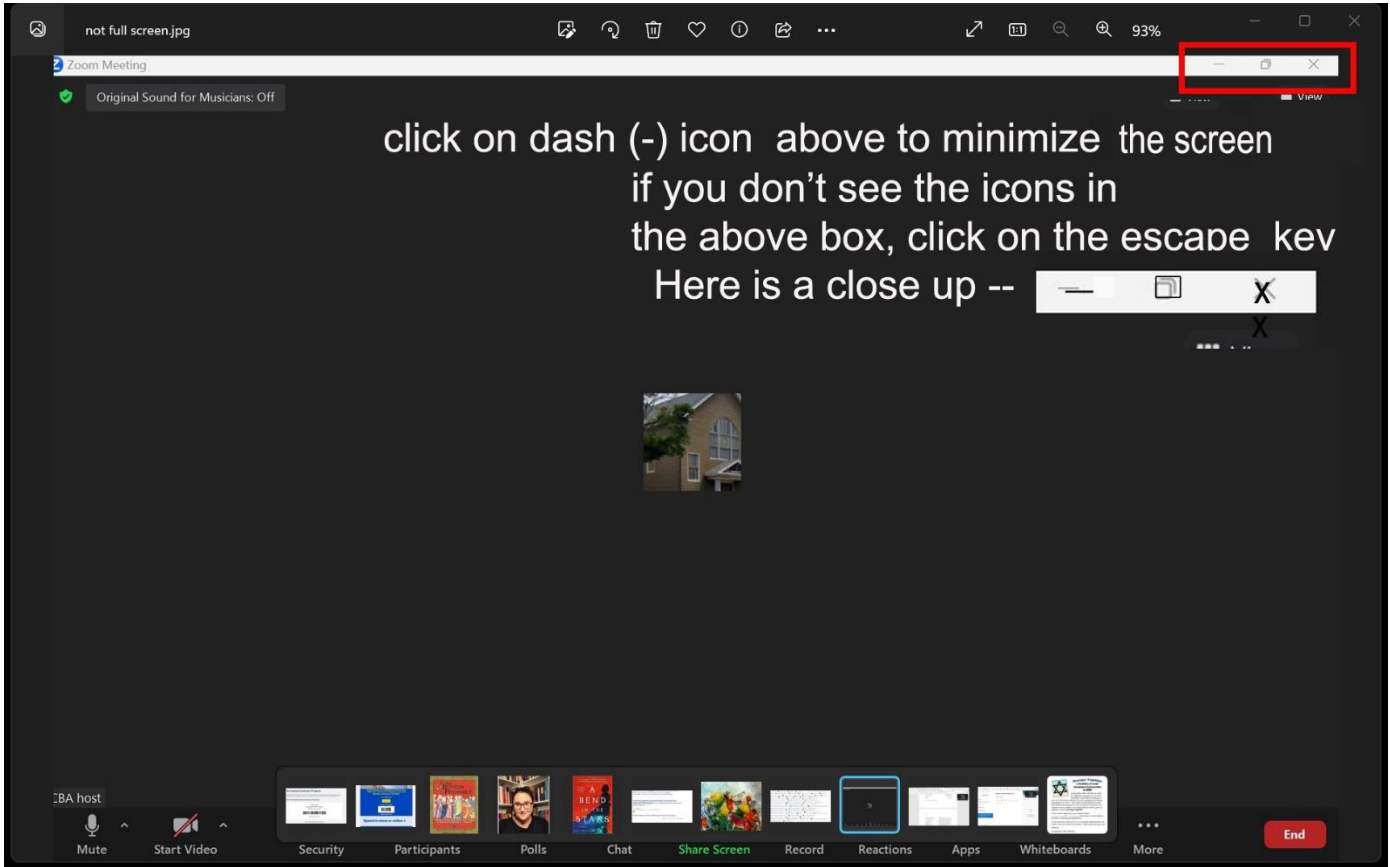

If you are comfortable viewing the mahzor and PDF on the same device, that is also possible. Below is a procedure to do so. This was written for a PC laptop but the general principles/methodology should apply to a Mac or tablet as well (not recommended to view on a phone).

***Please note, Windows users*** – see ***“Updated Instructions”*** at the end of this document.

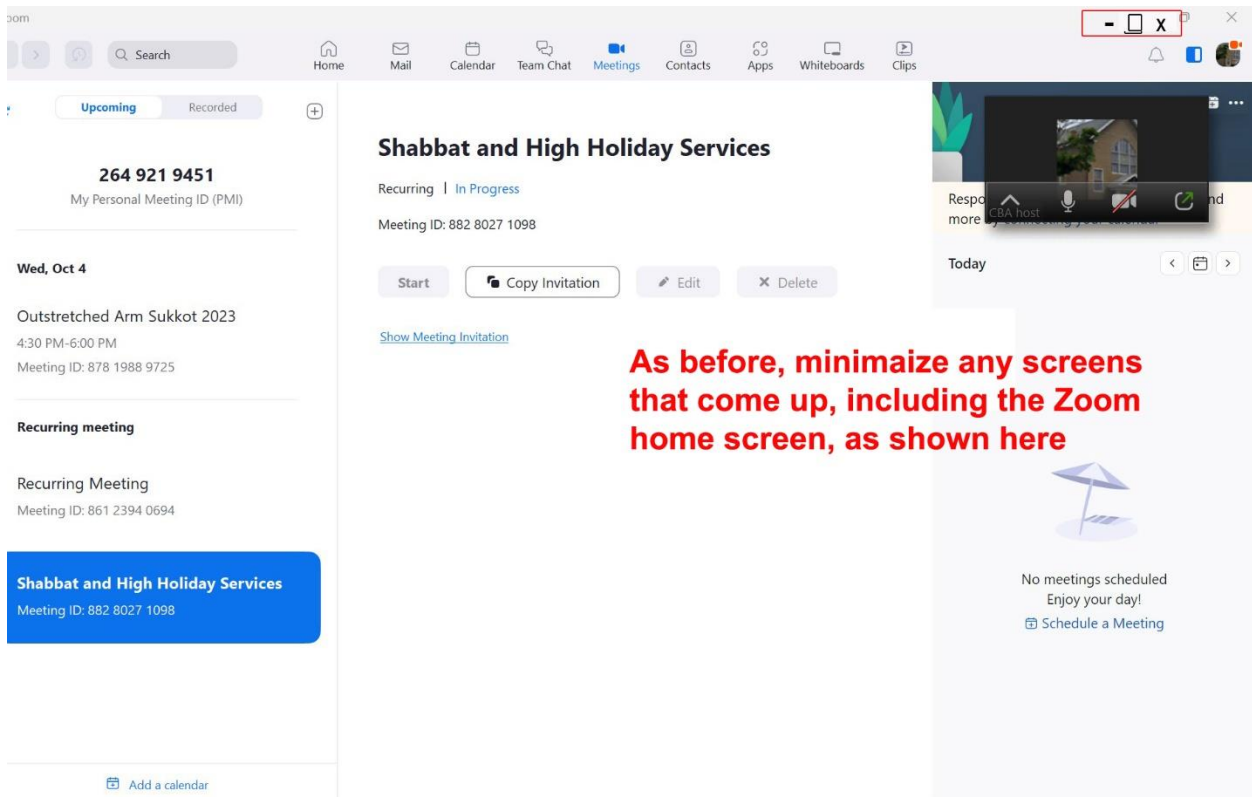

First – log into the Zoom meeting as you normally would

## Step 2

## Step 3

## Step 4

Yih-yu l'ra-tzon im-rei fi,  
v'heg-yon lib-bi l'fa-né-cha,  
A-do-nai  
tzu-ri v'go-a-li.

97 P'sukei d'Zimrah – Songs of Praise

יהי לרצון אפרי פי,  
והגיון לבי לפניך.  
צורי וגואלי.

97

Its radiance proclaims Your glory,  
And no one can be unaware of You.

<sup>1</sup> Your teachings are wholesome,  
restoring our souls.  
Your guarantees are reliable,  
making wise the simple.  
Your precepts are right

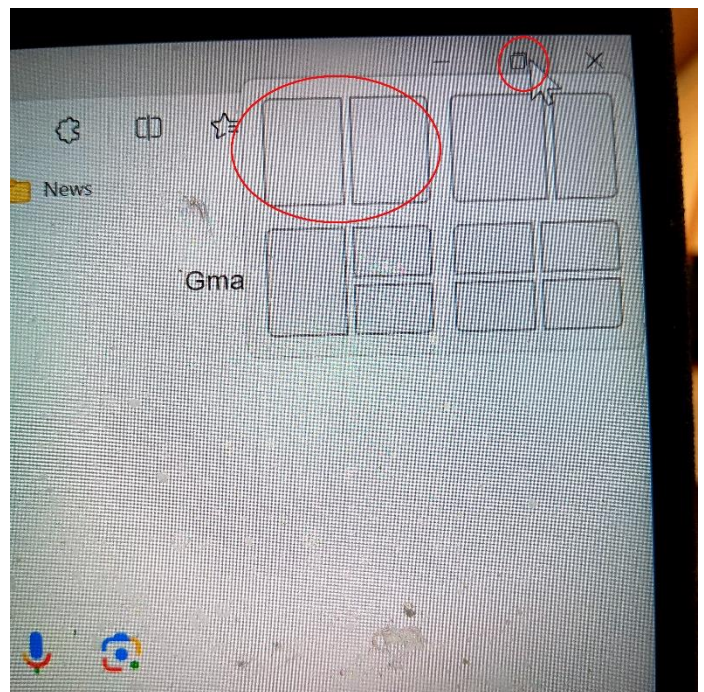

COMMENTS

<sup>1</sup> The second part of Psalm 19 describes the benefits available to us when we fully understand and are aware of God's "radiance." Then it addresses our difficulties in doing so. The lofty poetry of the initial verses underscores the contrast between the ideal of righteous living and the reality of human imperfection. At times, we need God's assistance in order to stay on the path, and we have to ask God for that help.

Click on the machzor PDF link on the website to open or find it in your download folder if you have saved it on your computer. You should see the machzor on the left and the minimized Zoom screen on the right. Use your arrow icons on your computer to forward or advance the pages

## Updated Instructions!!

If your version of Windows allows you to split the screen in two, you can view the Zoom screen on one side and the PDF on the other. The split screen option is shown to the right. Click the box in the upper right of the screen to see the split screen options

Again, the above applies directly to a PC Laptop or desktop computer. If you have a Mac the specific procedures may differ but conceptually should be very similar. If you know how to open your own Zoom meeting, you can practice on your own. The PDFs can be found on our website at <https://www.congregationbethabraham.net/> If you need additional help, please contact the synagogue at [info@congregationbethabraham.net](mailto:info@congregationbethabraham.net). Good luck!!
